

The MILMEGA 'AS' Series Dual Band Class A Solid State Amplifier for Automotive Radar Pulse Testing

Model: AS0104R-280/150
Dual Band Broadband
Amplifier

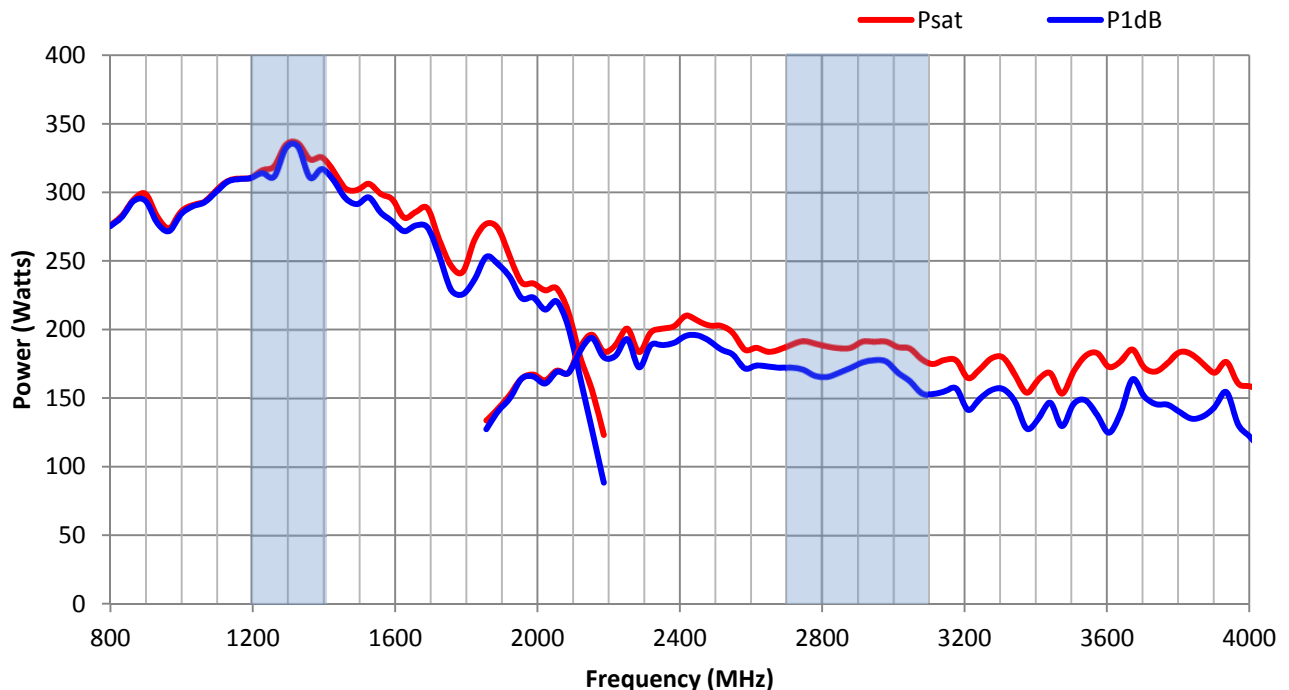

The AS0104R series of solid state power amplifiers follows the MILMEGA tradition for compact, upgradeable microwave power amplifier solutions with field proven reliability. Developed to cover the frequency band 1.0 - 4.0 GHz in two bands (1.0 GHz to 2.0 GHz and 2.0 GHz to 4.0 GHz).

This amplifier is specially tuned and specified in the two automotive radar bands in order to guarantee at least 280 watts of usable power in the 1.2-1.4GHz range and 150 watts in the 2.7-3.1GHz range.

Either RS232, USB and Ethernet or RS232 and GPIB remote controls can be fitted at no additional cost.

The unique 5 year parts and labour warranty on all MILMEGA amplifiers.
